DEPARTMENT OF
WATER RESOURCES

State of Idaho
Department of Water Resources
Attn: Tim Luke

My name is Bruce Bleak and I have groundwater permit #34 7064 in the Big Lost River Irrigation District. The purpose of this letter is to propose a mitigation solution for my well. While I can sympathize with the irrigators who filed for mitigation, I do not feel that my well has had a detrimental effect on the big lost river basin. I pump into a main line and the water is used on the land that the well is permitted for. My permit is for 3.0 cfs and I have already voluntarily decreased my pumping to 1.0 cfs. I hope that this will satisfy the state and the other irrigators.

Bruce Bleak
Rt. 1 Box 27
Moore, ID 83255

34-7064

POD located between eastside canal & Big Lost River
Diversion rate is 2.39 cfs
